Vaccine and Microchip Clinics

[en español]

The Animal Welfare League of Alexandria is proud to offer events throughout the year to help pet owners get basic vaccinations and microchips for their cats and dogs.

Low-Cost Vaccine Clinics

We are currently offering drive-up, physically distanced **Rabies, Distemper and Microchip Clinics** at the Vola Lawson Animal Shelter. These clinics require advanced registration, and walk-ins will not be served.

**Vaccinations Offered:**

Rabies - For dogs and cats

DA2PP - Canine Distemper-Adenovirus Type 2-Parainfluenza-Parvovirus vaccine, for dogs

FVRCP - Feline Rhinotracheitis-Calici-Panleukopenia vaccine, for cats

**Microchips:**

PetLink Microfindr Microchips - For dogs and cats

*All cats will receive a 1-year rabies vaccination. Dogs with a current rabies*
vaccination are eligible for a 3-year rabies vaccination. If requesting a 3-year rabies vaccination for your dog, please include a copy of vet records/current rabies certificate with registration forms or email to community@alexandriaanimals.org. Dogs must be over 5 months to receive a Distemper vaccine.

Upcoming clinics are scheduled for April 7 and May 5, 2021. Registration will open 10 days in advance of each event.

Community Pet Care Fairs

AWLA Pet Care Fairs are held throughout the City of Alexandria to reach our community and their pets where they are at! Pet Care Fair will offer free vaccines for rabies, as well as parvovirus and distemper, dangerous diseases that can cause discomfort, pain and even death in cats and dogs. Attendees can also take advantage of basic grooming and nail trims, pet food, behavioral advice and more. Dogs must be on leash, and cats must be transported in carriers; both items will be available on site for those who need them.

*In-person community events are temporarily suspended for public health reasons*
